1. JavaScript:

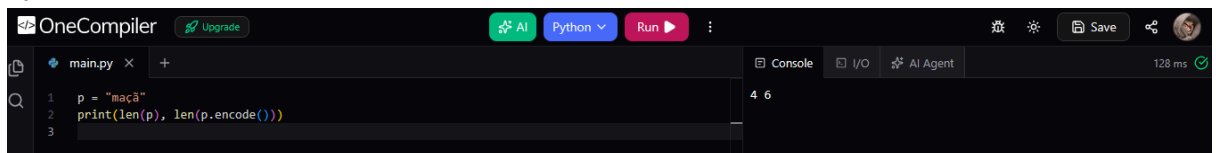

The screenshot shows the OneCompiler JavaScript editor. The code in the editor is:

```
1 console.log(0.1 * 3 === 0.3);  
2 console.log(0007199254740993);  
3
```

The console output on the right shows:

```
false  
9007199254740992
```

2. Python:

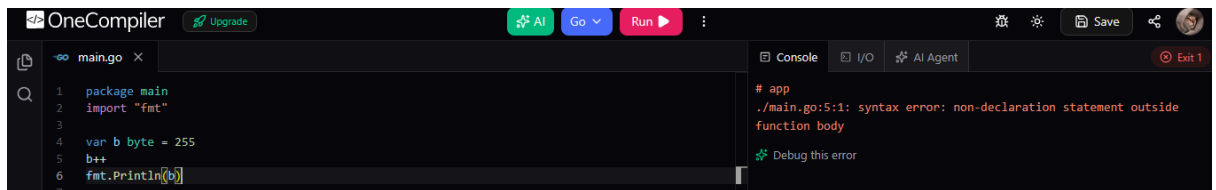

The screenshot shows the OneCompiler Python editor. The code in the editor is:

```
1 p = "maçã"  
2 print(len(p), len(p.encode()))  
3
```

The console output on the right shows:

```
4 6
```

3. Go:

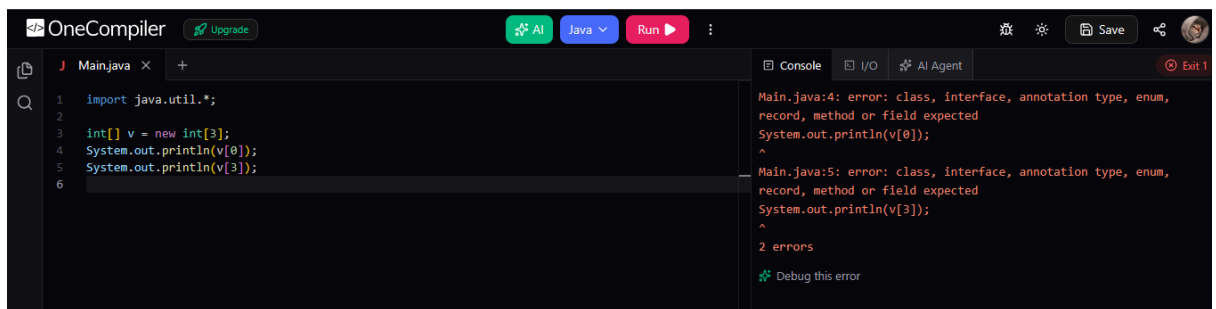

The screenshot shows the OneCompiler Go editor. The code in the editor is:

```
1 package main  
2 import "fmt"  
3  
4 var b byte = 255  
5 b++  
6 fmt.Println(b)
```

The console output on the right shows a syntax error:

```
# app  
./main.go:5:1: syntax error: non-declaration statement outside function body  
Debug this error
```

4. Java:

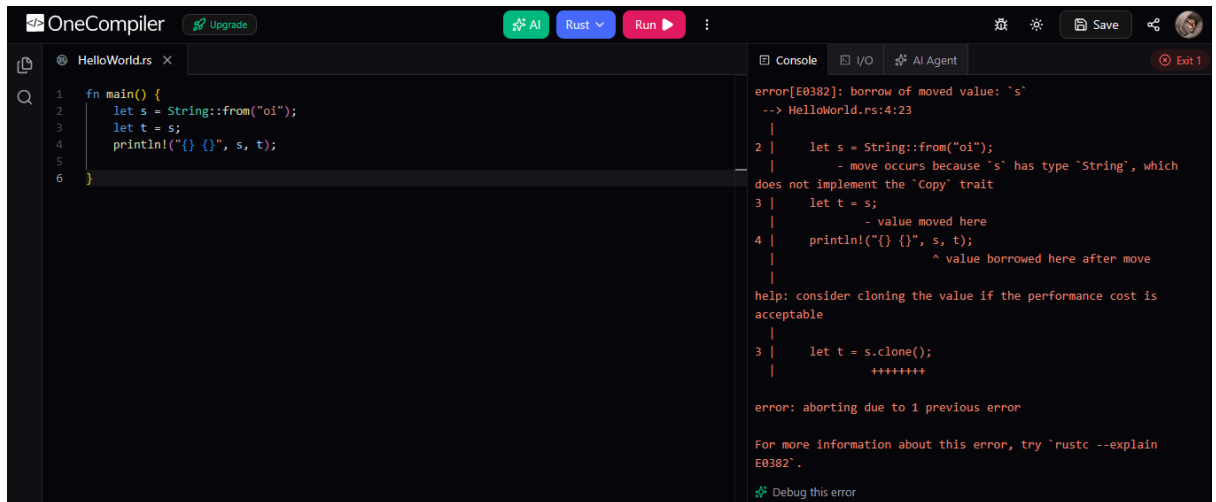

The screenshot shows the OneCompiler Java editor. The code in the editor is:

```
1 import java.util.*;  
2  
3 int[] v = new int[3];  
4 System.out.println(v[0]);  
5 System.out.println(v[3]);  
6
```

The console output on the right shows two syntax errors:

```
Main.java:4: error: class, interface, annotation type, enum,  
record, method or field expected  
System.out.println(v[0]);  
^  
Main.java:5: error: class, interface, annotation type, enum,  
record, method or field expected  
System.out.println(v[3]);  
^  
2 errors  
Debug this error
```

5. Rust:

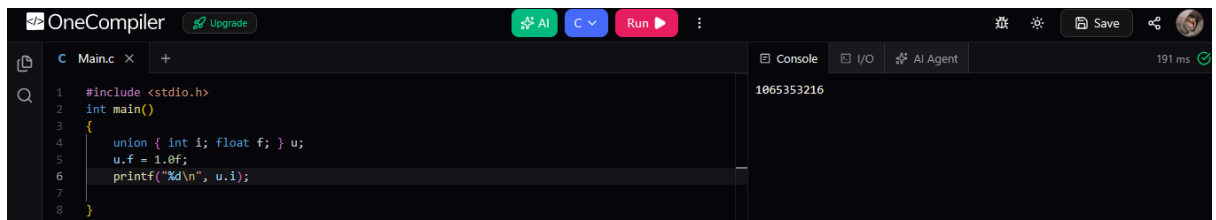

The screenshot shows the OneCompiler IDE with a Rust file named `HelloWorld.rs`. The code in the editor is:

```
1 fn main() {  
2     let s = String::from("oi");  
3     let t = s;  
4     println!("{}", s, t);  
5 }  
6
```

The console on the right displays a compilation error:

```
error[E0382]: borrow of moved value: `s`  
--> HelloWorld.rs:4:23  
2 |     let s = String::from("oi");  
   |     - move occurs because `s` has type `String`, which  
   |     does not implement the `Copy` trait  
3 |     let t = s;  
   |     - value moved here  
4 |     println!("{}", s, t);  
   |                   ^ value borrowed here after move  
help: consider cloning the value if the performance cost is  
     acceptable  
3 |     let t = s.clone();  
   |               +++++++  
  
error: aborting due to 1 previous error  
  
For more information about this error, try `rustc --explain E0382`.  
Debug this error
```

6. C:

The screenshot shows the OneCompiler IDE with a C file named `Main.c`. The code in the editor is:

```
1 #include <stdio.h>  
2 int main()  
3 {  
4     union { int i; float f; } u;  
5     u.f = 1.0f;  
6     printf("%d\n", u.i);  
7 }  
8
```

The console on the right shows the output of the program:

```
1065353216  
191 ms
```
